“PRODUCTS THAT CARE”

For more than 35 years, JVD has been committed to offering protection and care. Care for you, your health and your comfort. But also protection for your environment. We create and manufacture products that make sense, for both you and our planet.

PRODUCTS FOR EVERYONE, EVERYWHERE AND FOR A LONG TIME

All our products are developed and tested by our teams to ensure user comfort and well-being, anytime, anywhere. The kind of objects people handle every day without really thinking about them, from the now iconic hand dryers to soap dispensers.

At each hotel, restaurant, café, airport and office, JVD's collective hygiene and wellness equipment is there for all the moments that make up our daily lives. Many of our products are certified sustainable, made in France (in Rezé) and respectful of our planet, to preserve it for the generations to come.

VISIT OUR WEBPAGE

THE FRENCH KNOW-HOW

Based in Nantes, in the west of France, JVD is the leading designer and manufacturer of hygiene and hotel equipment and solutions. Backed by our unique know-how, our company has now expanded into more than 100 countries around the world.

COMMITTED TO YOU AND THE PLANET

JVD is dedicated to the idea of transmission, and our teams make it a point of honour to work hard each day towards an ecological transition which looks out for everyone's well-being.

Which is why, in an era where planned obsolescence has become the norm, we are committed to designing sustainable products for our clients.

JVD takes pride in considering sustainability elements such as energy efficiency and ease of part replacement in our product design and development phase to ensure our hotel customers can contribute to our sustainability drive with the continued usage of JVD products.

Key Initiatives for transition to sustainability include using unbleached natural cardboards with no color printing and using only recyclable or biodegradable materials in all packaging.

We believe in the role we have to play in our shared future. So, it is only natural that we see eco-responsibility as one of the key pillars of our strategy today.
